
LEGEND

- PAR 64 CP62 (MFL)
- 1KW ZOOM PROFILE *AND/OR* WITH IRIS
- 2KW ZOOM PROFILE
- HAZE MACHINE
- 3-COLOUR STRIPLIGHT
- Generic data projector

NOTES:
(1) Performance area size: masked to approx 7m x 5m. *TBC*
(2) Fixture quantities to be confirmed.
(3) FOH not drawn in position.
(4) Gobos: need either "A" or "B" size gobo holders; band will bring artwork. Projection surface to be discussed (cyc, portal etc).
(5) Hazers to be located up-stage, with external fans/ventilators on stand-by. Control from lighting console position.
(6) Patching: fixtures would be kept as singles as much as possible. However, some colour pairings could be done, please contact lighting designer.
(7) Lighting console: preferably offering faders per channel, toggle flash/solo function on each channel and playback, and possibility to run cue stack manually.
(8) Data projector (optional): minimum 1500 lumen, VGA and composite inputs; to run images off laptop computer located next to lighting control.
(9) Moving lights are welcome where available; please ask for relevant paperwork.
